

ASTM MASONRY STANDARDS

for the Building Industry, 9th Edition

NEW!!

720 Pages **Price: \$275.00**
8 1/2" x 11" Publication

The 9th Edition contains 123 total standards specifically related to masonry and referenced in the applicable building codes. Product specifications include solid and hollow loadbearing concrete masonry units, building brick and hollow brick (clay or shale), concrete building brick, paving brick, masonry cement, mortar cement, portland cement, mortar, grout, lime, facing tile, and prefabricated masonry panels.

ASTM Masonry Standards for the Building Industry also features required information for:

- **Sampling and Testing Masonry Assemblages**
- **Sampling and Testing Masonry Grout**
- **Property Requirements for Concrete Block**
- **Requirements for Common, Face and Hollow Brick**
- **Water Penetration and Leakage**
- **Procedures for Sampling and Testing Brick and Concrete Block**
- **Joint Reinforcement Requirements**
- **Mortar Requirements**

TMS 402/602-16

BUILDING CODE REQUIREMENTS AND SPECIFICATION FOR MASONRY STRUCTURES

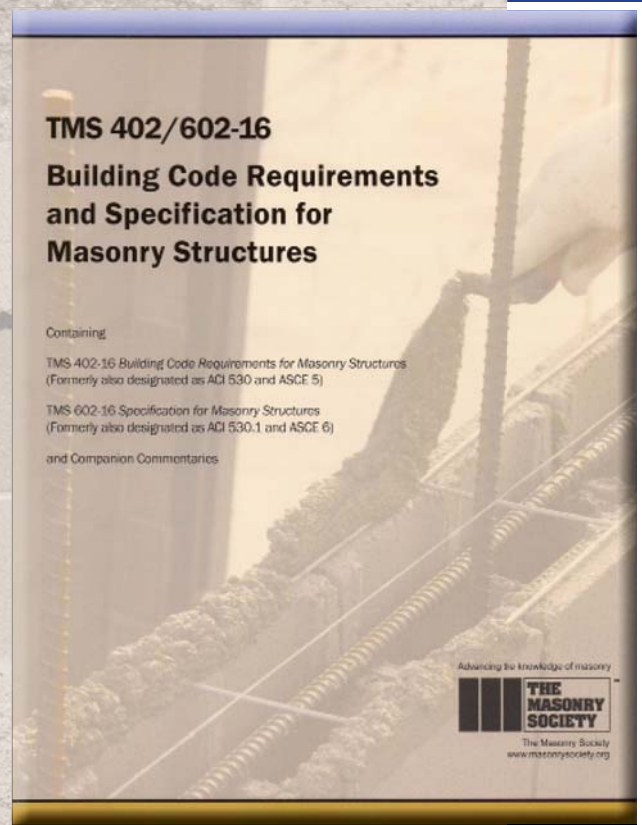

For the first time Building Code Requirements and Specification for Masonry Structures, TMS 402/602, has been published solely under the banner of The Masonry Society.

The code (TMS 402) covers the design and construction of masonry structures and the specification (TMS 602) is concerned with minimum construction requirements for masonry structures.

The TMS 402/602 contains changes for ease of use, including:

- **Removing redundancy between the Code and Specification**
- **Simplifying Testing and Inspection Quality Assurance Tables**
- **Simplifying prescriptive requirements into Table form**
- **Introducing requirements for Field and Lab Technician Certification**

The 2019 California Building Code (CBC) and the 2018 International Building Code (IBC) reference TMS 402/602-16 for the design and construction of structural masonry, masonry veneer, and glass unit masonry, and use the quality assurance provisions from TMS 602 for masonry inspection.
