SAN GABRIEL PUBLIC WORKS FACILITY SAN GABRIEL, CALIFORNIA

Owner

*City of San Gabriel
San Gabriel, CA*

San Gabriel Public Works Facility is located in a predominantly single-family residential neighborhood. The multi-use building contains administrative offices, conference rooms, storage spaces, the maintenance division and the engineering department.

Architect

*Gillis + Panichapan Architects, Inc.
Costa Mesa, CA*

Designed as a simple but contemporary envelope of concrete masonry units, the new facility is a collection of simple forms that are purposely contrasting to the residential neighborhood.

Structural Engineering Firm

*Dale Christian Structural Engineers, Inc.
Orange, CA*

Precision, split face and burnished concrete masonry units in combinations of tan, brown and red colors offer a great degree of warmth and a welcoming environment for visitors.

General Contractor

*Parkwest Construction Company
Redlands, CA*

The flexibility, the color and texture of the masonry units adds a simple elegance to the building while maintaining the requirements of sustainability, durability and economy that is appropriate to the function of the facility.
