

# REINFORCED MASONRY ENGINEERING HANDBOOK

## CLAY AND CONCRETE MASONRY, NINTH EDITION

**NEW!!**

804 Pages

Price: \$139.95

**R**einforced Masonry Engineering Handbook, 9th Edition, is based on the requirements of the 2021 *International Building Code* and The Masonry Society (TMS 402/602-16) *Building Code Requirements and Specification for Masonry Structures*. This book is useful to designers of reinforced masonry in eliminating repetitious and routine calculations. This handbook will increase the understanding and reduce the time required for masonry design.

In addition to the code requirements, sound engineering practice has been included in this publication to serve as a guide to the engineer and designer using it.

The techniques included in this publication have been reviewed by competent engineers who have found the results to be satisfactory and meet minimum code requirements.

Detailed explanations and applications of allowable stress design and strength design procedures are presented.

More than ninety step-by-step examples are provided, including a one-story building and a seven-story building design.

**This book addresses essential information on:**

- **Materials**
- **Masonry Assemblage, Strengths and Properties**
- **Loads**
- **Distribution and Analysis for Lateral Forces**
- **Design of Structural Members by Allowable Stress Design**
- **Design of Structural Members by Strength Design**
- **Details of Reinforcement and Construction**
- **Building Details**
- **Special Topics**
- **Formulas for Reinforced Masonry Design**
- **Retaining Walls**

The *Reinforced Masonry Engineering Handbook, 9th Edition* is intended to assist the designer in understanding masonry design and provides hundreds of drawings to maximize your ability in the practice of masonry engineering.

**MASONRY INSTITUTE OF AMERICA**

### REINFORCED MASONRY ENGINEERING HANDBOOK, 9TH EDITION

	Unit Price	Sales Tax	Shipping/ Handling	Total
California Residents	\$139.95	\$13.30	\$22.00	<b>\$175.25</b>
Orders Outside California	\$139.95	—	\$22.00	<b>\$161.95</b>

Publication may be ordered online at: <http://www.masonryinstitute.org>

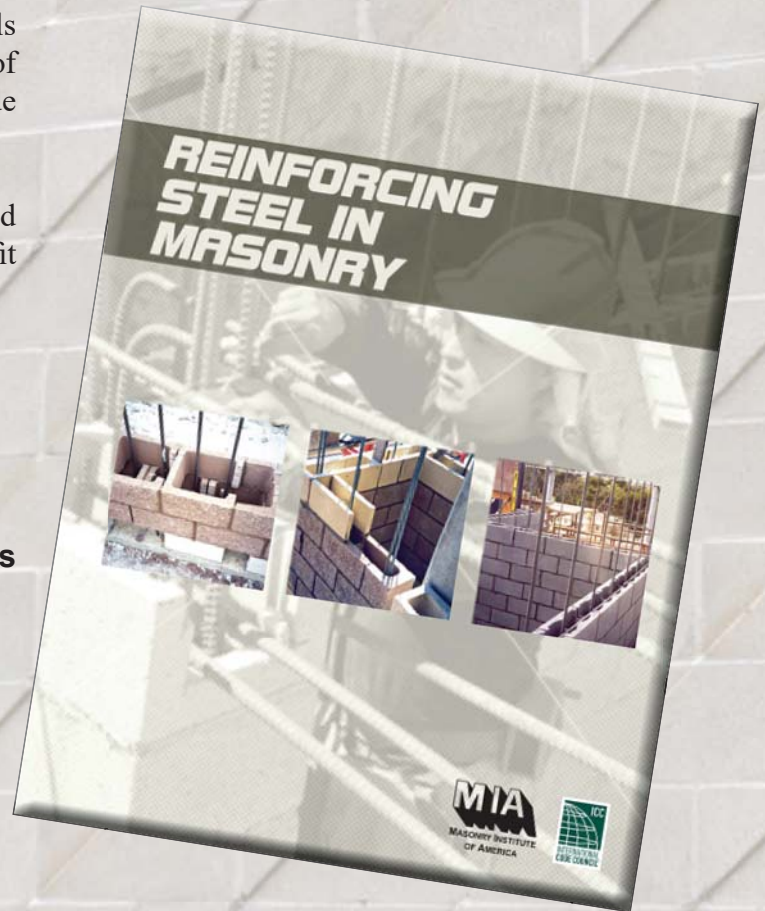

# REINFORCING STEEL IN MASONRY, Fifth Edition

**T**his 140-page handbook presents details and construction practices for the use of reinforcing steel in masonry based on Code requirements.

Connections are shown, specifications are provided and code design tables are included for the benefit and convenience of the user.

This book includes information on:

- **Function of Reinforcing Steel**
- **Types of Reinforcement**
- **Minimum Reinforcement Requirements**
- **Spacing of Steel in Masonry Walls**
- **Anchorage of Reinforcing Steel in Masonry**
- **Anchor Bolts**
- **Beams**
- **Shear Walls**
- **Columns**
- **Wall Connections**

140 Pages

Price: \$21.95

Based on the *International Building Code (IBC)* with cross-reference to *Building Code Requirements and Specification for Masonry Structures (TMS 402/602)*.
